

Effective project management for executives: Increase your team performance and achieve outstanding results

As a manager, you delegate projects to your team and set clear goals. But do you know the role and responsibility of the project managers you choose, as well as your own role and responsibility in the project?

In our interactive workshop you will learn:

- Understand and evaluate the basic processes and responsibilities of a project manager
- The importance of a well-defined project charter
- Interpret the results of the estimates during the planning phase of the project
- The need for buffers and reserves
- The importance of risk management

Workshop-Details

- Participants: 6-12
- Duration: 4 hours
- Cost: 1,500 EUR plus VAT
